T. J. BROWN, Observer. WAR DEPARTMENT, OFFICE OF CH. SIG. OFFICER, WASHINGTON, August 30, 1871. The barometer has risen somewhat since useday afternoon from the Gulf coast to fichigan and Nebraska, and still more Lakes Superior and Huron. The area of the lowest barometer, after extending northward beyond our stations, has moved eastward, and is probably north o Lake Ontario, and extending its influence rapidly over New England, where threatening weather now succeeds to this to clearing weather this morning. South-westerly winds have continued on the from the Ohio valley to Lake Superior. South and southeasterly winds continue on the New England coast. Light and fresh winds have prevailed in the Southern and Gulf States. Numerous storms of small dimensions passed over the middo sin and Atlantic coast, and similar ones are still threatening. Clear and pleasant weather is probable for Thursday from tieorgia to Lake Ontario, and westward. PENTACLES On Alabams street, pair of Gold spectacles. The finder will be lib-strally rewarded by leaving them at No. 264 Atlantic States, with local rains on the coast. FOR ARKANSAS RIVER.

"The meeting of the Chamber of Com-merce was well attended last evening, partly from the fact that it was known the Legal Tender peddling business of certain steamboats would be brought to the notice of the Chamber. By the action of the Chamber, published in another column, it will be seen that the members are very decided in their opposition to the action of the St. Louis Packet Company in insisting on peddling out goods during their trips on our river. They refuse any longer to patronize the company, and will do all they can against it, until the unjust resolution of the Board of Directors of that company is repeated, and our merchants eason, leaving Hemphis every Tuesda, ELLIOTT & MILLER, Agents angle Promenade st., foot of Jeffer FOR CAIRO AND ST. While they do not deny the boats the abstract right to take all the orders and seil all the goods they can, they simply say, 'So long as you persist in this course, gentlemen, we will not trade with you. Now that the railroad is completed to Memphis, and the Memphis boats still running, which have never been accused of peddling, we think our merchants have the best of the fight, and it stands the boats in hand to court forces with the the hand to court favors rather than to get the ill-will of them. Besides this, no one can tell how many orders may be directed to some other city, just for the action of one or two men. Every member of the Chamber will stand up squarely in this matter. If St. Louis wants our trade she must seek it in a legitimate manner—otherwise she cannot get it."

The lines which we put in italies in the above extract from the Gazette are signifi-cantly suggestive that an opportunity is by this imbroglio offered to our merchants
